Battle bay discord server

Dear Rovio has been the favorite mobile game for a huge amount of Battle Bay gamers, including hundreds of players who are active on a daily basis in Battle Bay's Facebook fan group Battle Bay World and Discord, and thousands in the game itself. More than 2 months ago, an update has been released, and since then we have never heard of the developers team anymore. We're feeling like the game is being neglected by Rovio, especially after closing Battle Bay's official platform and removing the community manager from his duties. There are a few things in the game that the most active players are complaining about, and we need the developers team to take care of these issues and keep Battle Bay under our radar, as things used to be in the past. Battle Bay is a unique game, and it's very sad to see how active it is being abandoned by Rovio, while the developers team was in the past. All Rovio needs to do is listen to what the community (fans) are complaining about, fixing these issues, maintaining the game like it used to be before, new stuff (maps, weapons, game modes, etc.) and Battle Bay will certainly have a better future with new players setting up games and thousands of older players, without forgetting the daily presence of thousands of active players. Rovio, don't underestimate how great the great, unique, wonderful and beautiful battle bay is. For this reason, we need your presence in the game. Thank you. Fans of Battle Bay. With Serious Repair's last forum post, Battlebay's platform is officially closed to the community. From this player's point of view, the future of our favorite game is in jeopardy! Let's hope the development team weather whatever stormy weather rovio management has sent its way. We also hope that this is not the beginning of the end! Please rally your clans and let them know that Battlebe Subredit is still active and could be a new home for those alienated from the stage closure. I blame the decline in play on the lack of advertising. After the global launch, I haven't seen a glimpse of online advertising anywhere that's a sad thing since this game is one of the most interesting and fun mechanics found in any mobile game. *EDIT: Adding the last post of Gambhir: "Edit: Brace yourself, things can get worse. Rovio's interim quarterly report into the announcement is coming tomorrow. Rovio Entertainment Corporation will publish its first quarter 2019 interim report on April 25, 2019 at 8:30 A.m EEST. are tightening operations like they do letting community support go.
